Easy to use
- Pannarello to froth milk as you like
- Adjustable drip tray
- Cup holder
- Ergonomic in day to day operation

Easy to clean and maintain
- Removable brewing group
- Descaler Warning

Saeco

Highlights

Customise coffee
With Saeco you can select your preferred coffee length and ground coffee quantity

Adjustable ceramic grinders

Whole beans are freshly ground for every cup by ceramic grinders, always preserving their full aroma and never overheating the coffee.

Bean to cup system
It means that whole coffee beans are freshly ground and directly processed for each and every beverage.

Cup holder

With this practical feature you can store your cups and glasses right on the machine — always within reach and conveniently stored without taking up space.

Cup lift
Manually adjustable drip tray to fit every cup size underneath the coffee dispenser

Ergonomy
Saeco is a synonym for convenience: refilling beans or water, emptying the coffee-dump box or the drip tray, all compartments are directly accessible.

Pannarello

With the pannarello you can froth your milk exactly how you like it. Just dip the pannarello in the milk and stir slowly in a circular motion. Froth the milk for as long as you want to create more or less foamy milk.

Removable brewing group

The brewing group is at the heart of every fully automatic coffee machine and it should always be kept clean. A task that doesn't get any more convenient than with a Saeco: remove, rinse and re-insert — finished.

Descaler Warning
Dedicated led to advise the end user that the machine needs to be descaled
